Good morning. I had hoped to send you this m email earlier, but am still waiting on one document to be final. I did decide to go ahead and send these two documents for you feedback and review so we can at least move any obvious changes. The larger excel file that list all the service areas and programs will soon follow. Please let me know if you feel the graphics capture more of what we do as core public health. I have made sure to note the preferences in chief/deputy naming may need to change and will later reflect what the final organizational chart looks like.

Appreciate your input. Thank you.
